##### Bulletin Sponsors Campaign to Cut Down Accidents

Five young children died on the streets of Edmonton last year who should not have died.

They were among the 320 men, women and children who were killed or maimed in traffic accidents.

The Bulletin believes that the lives of the children could have been saved if they had been taught the simple rules of safety—not to dash across or play on the streets to ride bicycles safely, to play safely.

The Bulletin has decided to take the lead in making the city's children "safety conscious" by banding them into a safety club.

**ASSISTS CAMPAIGN**

The Bulletin is enlisting the aid of a wrestling champion "Whipper" Watson, publisher of the Bulletin, to assist in the campaign.

The club will be known as the "Edmonton Bulletin 'Whipper' Safety Club" with Cecil "Tiger" Goldstick, also well known for his work among youth, as director.

#### Taxes Here Stay At 49.5 Mills

##### City Budget of \$9.3 Million Gets Approval of Council

Edmonton's long-held 49.5 mill rate stands for another year.

Ald. Armour Ford rallied only one supporter, Ald. Fred Mitchell, in support of his motion at last night's special City Council meeting to drop the mill rate to an even 49.

Council agreed to Commissioner John Hodgson's 1950 budget of \$9,321,229 for the city's 27 departments exclusive of the five utilities.

At that figure expenditures and receipts will balance, allowing \$61,562 for "miscellaneous" items which crop up during the year.

This year's budget is \$1,033,786 more than last year's actual figure, and \$1,589,093 more than last year's estimated figure.

The increase of \$1,033,786 in municipal assessment this year, bringing the city's total to \$19,347,886, will yield an additional \$600,000 in taxation at the 49.5 mill rate.

The five city-owned utilities are expected to fund \$97,406 into the city's general fund, while general business taxes are estimated to net \$900,000.

Commissioner Hodgson said that of the additional \$1,033,786 in municipal assessment, \$1,000,000 is for the higher assessment figure, school operation will have \$145,000. Expansion in fire and police departments will be \$100,000.

## TODAY'S MESSAGE

6 EDMONTON BULLETIN, Saturday, April 1, 1950

### PALM SUNDAY

Calvary was only a week in the future when Christ made His triumphant entry into Jerusalem. From highways and alleys, from palaces and hovels, the people came to greet the Beloved One. They spread palms at His feet and the very cry went up: "Blessed is He who cometh in the name of the Lord."

To understand the meaning of Palm Sunday is to share in the profound pity of Christ as He raised His hands in benediction over many who would soon clamor for His death. It is to grasp the essential truth that Christ's degradation was the price of betrayal, not alone of those who shared His days on earth, but of men throughout all ages who would crucify Him anew by their sin.

The period from Palm Sunday to Good Friday is the holiest in the Christian calendar because it invokes the spirit of pure repentance and atonement. This is the time when the Christian searches his own heart, confesses his share in the infamy of Calvary, and humbly resolves that henceforth he will dedicate himself more fervently to Him who is the way, the truth and the life.

Christ lived 2,000 years ago, but His followers are not much different now than they were who were privileged to know Him in the flesh. They still include the worldlings, who pay Him lip service, but cast scorn upon Him as others did because He would not come down from the cross.

The faithful alone are those who continue to behold on the face of the suffering Christ the glory that His redeeming love and to hear from His stricken lips the words of everlasting consolation and hope.

One cannot think of Christ the Victim without pondering over the tragic folly of Judas, who in a moment of reckless cupidity, sold Him for thirty pieces of silver. Judas stands in the place of every sinner—self-branded, self-condemned and self-condemned. He has been forgiven if only he cast himself in faith and sorrow at the foot of his Master.

So also with all sinners. It is the supreme tragedy of Calvary that while Christ imputed Himself willingly, that even the most wicked and sinful might be saved, many still will not take refuge in His infinite love and forgiveness.

Some sophisticated people think they can dispense with religion. Their empty flabby lives prove them wrong. Modern gaudy states are marked by hatred and hunger. "There is none other name under heaven given among men, whereby we must be saved."—Acts 4:12.

Christ taught that God and his kingdom are within us but we are in God too. He is in the growing grain, in all life and all life in Him. There is no excuse for not knowing Him. "For in him we live and move and have our being."—Acts 17:28.

## Inside Hollywood

**By Bob Thomas**  
HOLLYWOOD—(AP)—Everybody has two businesses—their own and the movie business.

### Race Problem Is Basis For Varscona Hit

Movie that faces the race question with dramatic courage, "Lost Foundation" has been held over at the Varscona Theatre.

Louis de Rochemont and Film Classics, Inc. have cast aside fear and favor in telling the story of a Negro doctor and his family who passed for whites.

Based on the stirring Reader's Digest article by W. L. White, the movie sticks to the startling facts.

Finally, in desperation, Mr. Carter and his wife, played by Robert Pearson, decide to pass as whites.

How the shock finally concludes dramatically told in "Lost Foundation."

Cast includes Robert Pearson, Mer Ferrer, Richard Widmark, Susan Douglas and Canada Lee.

### Soldiers Asked How They Like New Arctic Food

OTTAWA, April 1.—(CP)—While the soldiers like to eat, they don't like the army's trying to find out what the army is trying to find out.

Canadian army headquarters today asked its food experts to conduct a second series of food-tasting tests at Ottawa to get the individual soldier's reaction to the army's new 10-man Arctic ration pack.

Major J. G. Armstrong of Shawville, Que., and Ottawa is returning from Fort Churchill, Man., where he conducted similar tests on more complete tests in the field.

There are five different types of ration packs. In them soldiers find things like preserved, compressed meat and fish blocks, oatmeal blocks—oven can chow or cook—dried beans and wieners, biscuits, something like hard, canned soups, chocolate, tea, coffee and even canned beef and spaghetti.

### Catholics Ask Tax Exemption

VICTORIA, B.C.—(AP)—delegation of Roman Catholic laymen presented a petition to the government here demanding that the Catholic minority be exempted from paying taxes for public school support.

The petition deplored the fact that "Catholics, being bound by conscience, do not send their children to public schools." It also expressed relief of the obligation of maintaining such institutions.

According to the petition, the operation of separate Catholic schools saves the province \$1,000,000 a year in education costs.

Doctors say that fish are as nourishing as meat in protein value.

### K. To Sell More Here While Buying Less

OTTAWA, April 1.—(CP)—Canada has made tremendous strides in trade with the United Kingdom during the last 11 years, despite trade and currency restrictions and other problems that have hit the international trade front.

Although progress during the last 11 years appears strong and buoyant, things are not expected to be as bright in Anglo-Canadian trade this year. The drop may be anywhere from \$100,000,000 to \$100,000,000 in Canada's normal exports of about \$600,000,000 a year.

Imports from the U.K. are expected to increase slightly from about \$400,000,000 last year to \$450,000,000.

**WHEAT TOPS SALES**  
Soft wheat among Canada's exports to Britain, wheat, for example, last year totaled \$28,700,000 in shipments to the U.K., an increase of about 600 per cent over 1948 shipments of \$1,500,000.

Aluminum took the second spot in export trade to Britain, amounting to \$48,700,000, up about 400 per cent from 1948 to 1959.

The same kind of sharp export increases were noted in more than

### HAROLD LLOYD HAS LENS NOW IN HIS 'SPECS'

CALGARY, April 1.—(CP)—"Granddaddy of the silent movie" and "pater" to 600,000 North American shrimers—affable, bespectacled Harold Lloyd slipped from a westbound train here yesterday to greet a group of what he called "the first citizens of the country."

For a time he rose as famous as the comedians of the silent movie was forgotten. He was Imperial Potentate of the Shrine—the head of more than half a million shrimers in Canada, the United States and Hawaii.

Shrimers welcomed him at the station. He wore his trademark, the heavy-rimmed spectacles, on a wide, grinning face.

The hot-rimmed glasses are a necessity now.

"Yes, I got into my glasses these days," he told a reporter. "As one gets older, one's eyelight gets dimmer."

### Troupe Of 7 Tours Alta.

CALGARY, April 1.—(CP)—A troupe of seven young Alberta actors will give 31 performances during a five-week tour of smaller Alberta centres beginning late May.

The five-member Alberta drama board yesterday elected Professor R. H. G. Orchard of University of Alberta as chairman to succeed Alan MacDonald of Edmonton who has resigned. Other members of the board are Betty Mayhew and Gwyneth Edwards, both of Calgary.

Purpose of the tour is to give young Alberta actors an opportunity to perform, to promote the works of Canadian playwrights, and to give people in smaller centres in the province a chance to see legitimate theatre.

The drama board is financing the plays and arrangements for the performances are being made by U. of A. extension department.

The provincial players will be under the direction of Gordon Atkinson of Calgary, a graduate of the Pasadena playhouse, and will include John Richards and Grant Reddick of Calgary, Jo Pilcher, Eric Harvie and Dick Davies, all of Edmonton, and Ted Kemp of Nordegg.

They will present three one-act

## Big-Wig Is Now Small But Dreams Still Big

By Virginia MacPherson  
HOLLYWOOD, April 1.—(BUP)—A young ex-millionaire and former bank president is serving chop suey and fried shrimp these nights in Hollywood big-wigs—but between courses he's blighting a plan to become the movie czar of China.

Peter Chang, 42, is a restaurant owner now. But back in Shanghai he was as big a celebrity as any of the big-shots who flock in for his "Oriental food."

He was sort of a Chinese "Orson Welles" in the financial world over there. By the time Peter was 27 he was president of two banks, he'd earned \$500,000 American dollars (not yen), and he was married to one of the most beautiful women in all China.

He was a bigwig in the Nationalist government; owned a textile mill, and headed a syndicate of all China.

**U.S. Threatens Cut To Greece**  
ATHENS, Greece, April 1.—(BUP)—Premier Sophocles Venizelos appeared unmoved today by an American threat to cut off further aid to Greece unless a stable government is formed.

U.S. Ambassador Henry Grady made the threat in a strong letter. Informed sources said that if Venizelos persists in his refusal to strengthen the government, the Americans probably will start curtailing their aid by shutting off funds for hydroelectric projects.

Grady by the Canadian playwright Robertson Davies, "Eros at Breakfast," "Overland," and "The Voice of the People."

Purpose of the tour is to give young Alberta actors an opportunity to perform, to promote the works of Canadian playwrights, and to give people in smaller centres in the province a chance to see legitimate theatre.

The drama board is financing the plays and arrangements for the performances are being made by U. of A. extension department.

## OF ALBERTA'S NEWEST — LARGEST — & MOST MODERN REFRIGERATED FUR STORAGE BUILDING

Above is a photograph of the extensive dry cleaning plant and Fur Storage building of Page, the Cleaner and Furrier. With a total frontage of 135 feet the commodious premises contain the most up-to-date facilities. At the extreme

right is the new \$40,000 fur storage building containing Alberta's most modern refrigerated storage vault. Here 12,000 fur coats hung on individual hangers, can be stored. At front is the spacious sales room and repair room with the fur storage vault behind. In front is seen Page's fleet of modern trucks.

ALEX STARKO

Plans for Page's new Fur Storage Vault were given months of careful thought and are in conformity with the latest ideas of the engineers of the National Institute of Cleaners & Dyers, Washington, D.C.

Mr. Alex Starko, General superintendent at Page's attended the Fur Class of the Institute during studies there in 1948, graduating with a diploma reproduced below.

Mr. Starko returned to Washington in 1950 to secure latest information on Fur storage and to take a course in plant management from which he graduated.

### FUR COATS PROTECTED BY REFRIGERATION!

And Humidity Control

... Science's most modern and effective system of destroying Moth and Insect in  
employing both temperature and humidity control

Page's Refrigerated storage gives moths and insects the "Shock" treatment which quickly destroys them. This is done through an electrically controlled refrigeration system which can drop temperatures quickly to as low as 18 degrees. This is possible because Page's big vault is completely insulated with fibre-glass with a steel door entrance.

Cold, however, is not enough for the proper care of Furs. The air in the vault must be comparatively dry or mild may form a mildew that could be more devastating than moths. In Page's vault, dry air is assured through HUMIDITY CONTROLS.

Fur and Cloth Coats Hung on Individual Hanger—Regularly Inspected

Page's big storage has a capacity for 12,000 coats, each hung on an individual hanger with plenty of air space surrounding each coat. They are regularly inspected and can be seen by the owner at any time. Page's are anxious for the public to see conditions under which their furs are stored... Cloth coats are stored too as well as fur.

Furs are picked-up and delivered and protected by insurance from the time they are handed to the driver until returned.

### Fur Coats Repaired, Remodelled by Expert Craftsman

D. A. STRATHDEE

We have been fortunate in securing the services of  
MR. D. A. STRATHDEE

Recently arrived in Canada from Scotland. Mr. Strathdee learned the care and repair, remodelling of furs, and managed a large fur manufacturing plant under the exacting requirements of the British Fur Trade Board, and had 15 years experience in the Old Country before coming to Canada.

Consult him:

Our repair department has the latest in equipment for repair or remodelling of your furs in conformity with the newest styles.

### "POLARIZED" FUR COAT CLEANING

Page services include the drumming with POLAR BEAR fur cleaner, a gentle process which removes dirt and grime. Vibrated to restore fluff-lustre.

### STEEL DOOR PROTECTS FUR STORAGE VAULT

Fur coats are extremely valuable, and that's one of the reasons why Page's vault is protected by a bank type steel door 1 foot thick set in complete concrete construction which is similar to those used in bank vaults. All coats stored are fully protected by insurance.

Another reason is that such a door aids in preserving the proper air and humidity inside the vault. Page's huge vault is entirely insulated around its walls with the latest type of fibre glass and cork insulation. The vault has a cement floor and coats are hung on tiers of iron pipes, ensuring the utmost in cleanliness.

## Chamber of Death For Moths Is Vault

It's shocking what goes on in the new fur vault of Page the Cleaner, 9238-115 Avenue. In fact it shocks moths and other fur pests dead.

They come in, complain in the coats, and are taken into the "room." It's a room of temperature of 40 degrees in there. That's it happens.

### FLUCTUATE HEAT

"We shoot the temperature down to eighteen degrees," said general superintendent Alex Starko, lowering his arm like Clancy's famous boom.

The heat is put on. Up goes the mercury to 70, then down again to 15. It goes back up to a normal 65 and they sweep up the causal.

"We call it the shock treatment," said Mr. Starko pleasantly. "It'll kill anything."

### TEMPERATURE CONSTANT

All in all, Page the Cleaner's new fur vault is a remarkable place. It's a big high room with the latest in thermostat and humidistat controls so that climatic conditions

never change. Except when they're killing moths, of course.

The floor consists of three inches of concrete overlaid by alternate layers of asphalt, cork, asphalt and concrete. The walls are insulated with an equally massive coat with concrete walls stop 10 inches of fiberglass. Three tiers of specially-designed hangers crisscross up the ceiling.

Even the door's impressive. It's a big steel contraption which is recently guarded the vault of an Edmonton bank.

**ROOM FOR 15,000 COATS**

It opens just once a day—to admit the fur storage "inside man" who brings in the newly-cleaned furs.

During the year, he'll probably handle several million dollars worth of them. Capacity of the big vault is 30,000 fur coats, each with its full four inches of "breathin'-space."

That much fur is worth some \$10 million. That's \$3 million, at \$300 a coat.

EDMONTON and district sales representative for Page the Cleaner is James Shedd.

## Urges U.S. Say It Won't Use H-Bomb First

Exclusive to The Bulletin

CHICAGO, April 1. — (UPI) — Atomic scientist Hans A. Bethe said today that the only cause this country has for trying to make the hydrogen bomb is "to prevent its use."

Production of the super bomb is not justified merely because Russia may develop it, he said.

He suggested United States proclaim to the world that it will not be the first to use the H-bomb.

Bethe, formerly chief of the theoretical physics division of the Los Alamos, N.M., A-bomb laboratory, asserted that the H-bomb "makes our country more vulnerable rather than more secure."

Writing in the bulletin of the atomic scientists, the Cornell university physics professor declared that "old-fashioned A-bombs would be sufficient to even the score in the case of an initial Soviet attack."

## Woman Stole To Use \$60 Of Drugs Daily

CALGARY, April 1. — (CP) — Flora E. Trotter, a drug addict who admitted stealing money to consume \$60 worth of morphine per day, was sentenced yesterday to five years in penitentiary and was fined \$200 with the option of an additional one month.

Marion Wagner was sentenced to six months on a drug charge, and was committed to trial on a second drug charge. Her husband, charged jointly, already has been sent up for trial and is free on \$2,500 bail.

The Great Wall of China was built mainly of earth and stone and varies in height between 15 and 20 feet.

## Page The Cleaner Expanded Rapidly

If this story is unbecoming to Page the Cleaner—then Page will be coming to us.

That might be how Page the Cleaner's general superintendent, Alex Starko, would begin this story if he was writing it.

Witness the eye-catching slogans he has turned out for the company.

**ALL EQUIPMENT NEW**

Actually, it's hard to be anything but becoming to Page the Cleaner or Alex Starko, considering their remarkable 5 1/2 year record in Edmonton.

The first year of operation saw a new building added to the small plant the present owners started with. Another addition went up the following year and now a complete new building, a modern fur-storage plant, has just been added.

"Not a single piece of equipment remains from what we had here 5 1/2 years ago," commented Mr. Starko proudly.

**EXPECT MORE EXPANSION**

Just two weeks ago the company added three new trucks in an effort to catch up with the demand for their up-to-date services.

But it's still running ahead of what they can supply, and Mr. Starko says, "We'll be back in a few days."

## Seretse Given Warm Welcome

JOHANNESBURG, April 1. — (AP) — Seretse Khama, exiled chief-designate of the Basotho tribe, returned to his native Bechuanaland yesterday and was greeted by welcoming cries from his tribesmen.

British officials refused, however, to let him go to the territory of his tribe, fearing that his loyal supporters would attempt to kidnap him at the Gaborone airport, where he alighted, the officials said.

New machines have been introduced and unnecessary motions by hand labor eliminated. "Everything moves at a set rate, going in and out as one end, coming out clean at the other," explained Mr. Starko.

"We find it makes not only for more efficiency but for better quality as well."

## Irish Employers Upset Worker Exchange Plan

By Derry Moran  
Special to The Bulletin

DUBLIN.—(UPI)—Reluctance on the part of Irish employers to accept continental workers is stated here to be killing the recently-concluded Swiss-Irish trainee exchange system in its infancy.

A like fate is predicted for a similar agreement already signed and shortly to go into operation between this country and France.

A total of 150 workers applied for transfer under the Swiss-Irish agreement, but to date only 12 workers, six from each country, have been exchanged.

The others wait patiently for news of their applications, but with rapidly vanishing hopes.

The scheme, administered here by a committee of labor, commercial and professional leaders headed by Minister of Industry and Commerce Daniel Morrissey, aimed originally at exchanging hundreds of young workers from all classes between the two countries.

The trainees would work for 12 months, learning language and customs of the land.

Of the 150 total, 100 were Irish.

**CATERING, HOTEL TRADES**

Most of them were women engaged in catering and hotel trade, although a large proportion were male employees of banking and insurance houses.

The latter have found their employers unwilling to accept foreign workers who have not been trained here, while language differences present obstacles in the hotel trade.

## Tram Operator Traps Robber

MONTREAL, April 1. — (CP) — While shop girls screamed "holdup" from the sidewalk and streetcar passengers stared pop-eyed at a newcomer in their midst, the conductor slammed the doors and trapped the man yesterday. Police said the man, about 30, had just robbed a candy store of \$22. He tried to escape on the street car.

**WHO OWNS THEM?** Edmonton's strangest "orphange" is a vacant lot near police station, home of old cars which police haul from streets. Why they are abandoned is mystery to police.

## Old Car Orphanage Poses Police Problem

By Barney McKinnley  
Bulletin Staff Writer

Strangest "orphange" in town is located in a cluttered little vacant lot, behind, and across the lane, from the city police station.

The "orphans" are abandoned cars left on the streets of Edmonton by motorists who have since seemingly managed to vanish without trace.

### DOOD TRUCK ABANDONED

Right now there are about four motorcars can sharing a deserted scene with a half dozen battered vehicles towed from road accidents. There's a thirteen-year-old model Ford truck for instance. This one got stranded in Edmonton when its driver left it parked on a downtown street almost a year ago, and then went away and forgot all about it apparently for good.

It bears D.C. licence plates C53-306. There's a Vancouver phone number on the cab door beneath a firm's name and a Winnipeg city truck licence on the box. But despite extensive enquiries police have been unable to find the man who left the truck here.

### NO HOME FOR "WOGS"

There's the "House of Alberta." That's what a painted sign on the side of a green 1937 model Ford says. Another sign on the same car says "Atom 4." The little green Ford is minus one tire, but there is still auto robe over the back of the front seat and the word "Camrose" is stencilled on a running board tool box. You'd wonder how the house could get lost, but police haven't been able to find anyone in Camrose who wants her. House has been at the orphanage about three months.

It's fun to listen to the police story about the vanishing trailer. A mammoth affair, it stood all winter opposite a vacant lot on 102A avenue near Alex Taylor school. It had no licence plates, no identification of any kind. Police would have liked to move it.

**CHANGED MINDS**  
But everyone they thought about trying to manoeuvre it into the tiny parking lot where the other orphans were freezing in for a winter's stay, they changed their minds.

### Africa Defence Made In Sask.

REGINA, April 1.—(CP)—Kaskatchewan legislature yesterday heard a defence of South Africa's native policy by Adrian Roberts, high commissioner from the Union of South Africa in Canada.

Proceedings of the House were suspended to allow members to hear the high commissioner, who is on a tour of western Canada. He was elected to the legislative chamber by a guard of honor composed of 18 Boer War veterans.

Mr. Roberts said his country is passing through dangerous and trying times and is being subjected to much ill-informed criticism.

## STEEL FOLDING RULE TAKES PUNISHMENT

Combining the features of a steel tape with those of a wooden folding rule, a tempered-steel zig-zag rule is so flexible it can be twisted like a pretzel without damage.

It can be wrapped around cylindrical objects to measure circumference, yet it has the rigidity of a standard rule, enabling it to be used as a straight-edge for drawing lines.

Lighter than the average wooden rule, it does not have to be folded after each use because it is virtually indestructible. You can even step on the steel rule while it is open or closed without damage.

It was expected to close. Persistent reports from Coleman, Alta., pointed to an almost complete shutdown of coke ovens there by the end of April.

Mass meeting in Drumheller has been called for Sunday when miners are expected to protest the lack of a Canadian coal policy.

**Sartorial Dilemma**  
On his way to Italy to film film "Wallis" "September Affair," with Joan Fontaine, Joseph Cotten, and his wardrobe trunk and landed with one suit of clothes, which had to do until tailors in Rome remedied the situation.

Hardest hit are the mines in the Drumheller valley of east-central Alberta and the Crown's West Pass area west of Lethbridge in the south. These mining centres are almost wholly dependent upon coal.

At least four mines have closed in the Drumheller valley and several more have closed, or are expected to suspend operations in the Crown's West Pass area.

**OUT OF WORK**  
"More than 1,000 men are out of work in the domestic coal fields," John Crawford, provincial director of mines, said. He said he was not prepared to say how many mines had closed.

Verne Sanders, manager of the Drumheller office of the unemployment insurance commission, reported that this week he received 700 new applications for unemployment insurance. Four hundred miners had been drawing out-of-work benefits for some time.

In the south, another 80 miners were jobless as two strip mines in the vast oil operations and prepared to close. Other collieries were expected to close.

## New Pressing Machines Do Not Press At All

It's not news that dry cleaning isn't dry, but Page the Cleaner has added a new paradox to the cleaning industry with pressing machines which don't press.

Called "silk finishers," they work by blowing the wrinkles out of garments with a mixture of steam and air.

Page the Cleaner has had two of them for the past three months, doing what general superintendent Alex Starko calls "a far better job than ordinary pressing."

To him, they're easily the most appealing pieces of equipment in plant which is practically bursting with new machines and gadgets.

**WAS A WOMAN'S SPECIALTY**  
There's nothing I like better than getting a beautiful silk evening dress and putting it through the silk finisher," he said enthusiastically.

Pressing dresses used to be a woman's specialty, he pointed out, and it gives me a kick to be able to match their work my means of a machine."

The heaviest rainfall on record in the United States was 15.6 inches in six hours, at Lake Charles, La.

GENERAL superintendent and co-owner of Page the Cleaner is Michael Starko.

## Nfld. Views Full Year As Province

**ST. JOHN'S Nfld., April 1—(CP)**—The first year of marriage between Canada and Newfoundland may be regarded as the honeymoon.

As far as material benefits go, there have been too many cross-currents in world affairs to set a clear picture of the way conditions in Newfoundland have been affected by confederation.

There were, for example about 12,600 jobs this winter. But that can't be blamed on confederation.

**Hates Exercise** Glamorous Gloria Swanson, starred in Paramount's "Sunset Boulevard," confesses that she hates physical exercise. But she loves to dance.

Clearly, confederation can't be blamed for any of these.

There can be no doubt that the social security measures — family allowances, unemployment insurance, old-age pensions, more liberal allowances for disabled war veterans and their dependents —

## A Trip Through McDonaldland

CALGARY—McDonaldland, so named late Thursday night, not many minutes after Stampede had put the final whammy on Edmonton Flyers, a downtown Calgary area, fronting on both sides of Eighth Avenue.

It extends from 4th street east at one end, to 4th street west at the other.

All through McDonaldland yesterday—in the Club Cafe, News of the World, Central pool-hall, everywhere the hockey fans of Cowtown gathered—the buzz was about the Stampede. And especially about the Flyers (Butch) McDonald, the slim-hipped blond who had taken away as coach from whip-cracker Marty Burke and sweat-soaked the Cowboys into winning a league championship.

Those Stampede fans, clutching their prizes, in such superlatives as "he did a wonderful job," "He's the coach of the year" and more, felt no doubt as to how they feel about Butch McDonald.

In the Central pool hall, the praise was especially loud. This is McDonald's place of business, a pretty lucrative business, too, they say.

## The Blond Was Taking It In Stride

The proprietor didn't let it himself.

But one of the fellows who works for him did—of how "strangers" were dropping down, ostensibly to buy a package of cigarettes or a soft drink, but actually desirous of having a word with the Stampede coach.

Calgarians were paying their respects to a pinch-hitter, who had belted a homer by taking a dispirited, rebellious hockey team and making it win.

As for the biggest name in town, at mid-afternoon he was taking it all in stride... waiting on the cash customers, checking the tables, racking up bills, reaching into the cooler for the soft drinks.

"When did you figure you had the Flyers bagged?" I asked him.

The phone rang and I could hear him saying, "Thanks, thanks a lot," before hanging up. Then he got around to my question.

"I was pretty sure after that fifth game, the one we won in Edmonton 4-2," he answered. "But not before. Not a minute before."

The Stampede coach rated the last game, the one of Thursday night, as the poorest played of the series. He thought it lacked the thrills of some of the earlier contests.

"A great one to win, though," he provided the prize understatement of the season.

## Playing No Favorites

McDonald didn't want any part of turning the spotlight on any one of the players as being the "most valuable" player. "No," he said. "Sawchuk, Coffin... I wouldn't know where to stop," he neatly sidestepped the dynamite-laden (for him) query.

But he was pretty definite on certain other matters. The Rockies Coffin will be in the National Hockey League before the end of next season. Since the playoffs got underway veteran John Sawchuk has been a tower of strength on the defence. Flyers goalie Ray Frederick he called "the most improved player in the league over the last half of the season."

At the same time he thinks the Fort Frances boys "would have better hands."

The Stamp "savants" refused to be drawn into any discussion of what might have "happened to the Flyers." He admitted he had his own ideas but didn't want to be quoted.

"No," he insisted, "I rather not talk about it."

It came out that Marty Burke, his predecessor in office, had not bothered to come around to the dressing room to congratulate the Stampede in their unexpected series win over the Flyers.

Was he surprised? "Yep, a little," he admitted. Then I headed upstairs, into McDonaldland.

## Pro Golfers

### Begin Revolt

CHICAGO, April 7 (AP)—The Professional Golfers' Association of the United States said last night that most of its headlines tournament stars are planning to bolt the organization and form their own group.

The player revolt, apparently aimed against PGA operation of tournaments, has been boiling with in the ranks since the Phoenix open last January. Tom Crane, PGA executive secretary, said the group said the "long-term" plan of the new group includes George Schemmer, manager of the PGA tour, and the PGA's tournament stars, including Ben Hogan, Cary Middlecott, Clayton Hearsh, Johnny Palmer, Bob Hamilton, Tony Penna and Jimmy Thomson.

This imposing array of links talent is representative of the entire tournament field since it includes all the major title and money winners—the players the fans pay to see perform.

MEMORIAL CUP GAMES TONIGHT

East—Eastern Canada semi-final—Guelph-Billmore vs. Porcupine. Combined at Toronto, first game of best-of-seven series.

West—Western Canada semi-final—Prince Albert-Minto at Regina Park, Regina leads best-of-seven series 1-0.

NEW YORK, April 7 (CP)—Jack McDonald, rookie winger with New York Rangers, twined a knee in practice yesterday and will not make the trip to Montreal for the second game of the Stanley Cup West final playoffs. He will be replaced by Jean Paul Lamirande, who played most of the season with the Rangers' American League team, New Haven Ramblers.

## April Fool!

If you're a bulging purse,  
Shun it as you would a curse.  
No matter how it makes you drool,  
Heed it not. 'Tis April fool!

Couple of weeks back, Duncan Campbell, 10904-117 street, sat up all night bringing in a new oil well. Night before last he sat up all night too. This time it was a baby daughter. Duncan Campbell through both ordeals in great shape. Mrs. Campbell? Oh, she's fine, too. This is daughter number four and she'll be called Patricia. The others are: Barbara, 12, Elizabeth, 10, and Kathleen, 18 months.

I had a spot of difficulty running down this announcement. Phoned another Duncan Campbell at 11247-67 street and congratulated him on baby daughter's arrival. Got the poor fellow out of the bathtub, too. He was quite surprised.

## Flowers For Elsie

Elegant Elsie, my favorite waitress, has more admirers than you can shake a stick at and they're not all male.

Miss Rene Hobbing of Rene Flowers, 10183 100A street, sent me a lovely bouquet of red roses and yellow tulips for Elsie. Elsie, yesterday.

And guess what she penned on the bottom of her note: "Mr. DeLong can smell them."

But when really sharpens is a phone call from Elsie's boy friend who says:

"If you don't stop eating in you'll be getting flowers that you won't be able to smell."

Two broken-hearted girls from Bonnie Doon telephoned this little jingle and added they still think the Flyers a grand team!

Edmonton Flyers sat 'em up, the wall, Edmonton Flyers had a great fall, And though all the team played With whole heart and soul, It beat Russ Derrill for only one goal.

## Anniversary For Stewart

Yesterday was quite an anniversary for Dougie Stewart at TCA office. On March 31 Doug was chucked from a burning Halifax near Hitler's old show town near Nuremberg.

Next day Doug was a prisoner of war. His most vivid recollection of that fateful night was not his leap from the flaming kite. It was the kindness shown him by a German farmer and his wife after Doug gave their little girl a bar of chocolate.

My good friend Mark Robertson writes that I ought to be ashamed of myself, hawking out contractors for not boring peepholes in fences. Mark wants to know what's wrong with my jackknife.

Oh, I dunno Mark. Just lazy I guess.

A very goodnight to all and especially to people who get fooled today.

## House Cheers Stamps Along Hockey Trail

Calgary Stampede will enter the Allan Cup playoffs with all the good wishes of Alberta legislature.

Calgary MIA F. C. Colburn drew House attention yesterday to the fact that the "rookie" hockey boys were out to "put" the trophy for Alberta.

CCF Leader Elmer E. Roper said even though, as a good Edmontonian, he'd damaged his throat cheering for the Flyers, he'd nevertheless received performances showed the best team was the Alberta "C" and "and" may they continue to win.

Premier Manning showed proper sympathy for Mr. Roper's throat. In view of this occasional hazard, he said, the government would now file the Workmen's Compensation Board report.

Alberta has 20 new laws on the books today.

Lieut.-Gov. J. J. Bowlen yesterday laid the legislative royal assent to 20 of the government's latest contentious new acts. More than 60 other bills are still being debated.

Two private bills extend gas service franchises, among amendments Medicine Hat General Hospital charter and others incorporate the Northwest Telephone Company Limited and Mount Royal College.

Other bills provide for minor amendments to the agricultural schools act, the municipal assessment commission act, the Lloyds minister hospital act, urban delineation operations act, private delinquency act, fire prevention act, and business preservation act, mineral taxation and minor act, cemetery act, real estate agents' licensing act, municipal hospitals act, and public trustees act.

The government's \$91,641,747 appropriation act granting public service funds also received royal assent.

## Spring Activity at Airport

**SOUND OF BIRDS**—hours-old baby chicks—sure sign of spring at airport. Every year Edmonton hatcheries lift quarter million chicks across western Canada and into north country. Hatcheryman Larry Smith and TCA groundworker Jack Burgess load plane.

**SKIS** are stored for summer as airlines prepare for big summer season. Traffic was up 15 per cent last summer, is expected up again in 1950. Removing skis from Anson are aircraft mechanics Frank Hingston and Gordon Cannan.

## Spring Makes Debut At Edmonton Airport

By Stanley Burke  
Bulletin Staff Writer

Out at the Edmonton Municipal Airport these days there are signs everywhere of activity which always marks spring.

Skis have been banned and the last of the winter gear is coming off the aircraft to be overhauled and put away for the summer.

Even though the first robin is still many miles to the south, workers in the administration are already hearing the sound of the birds—hours-old baby chicks being lifted to farming communities across the country.

"It's just like the sound of the rain," commented Capt. James Bell, airport manager. "Every year when I hear the cheeping of those chicks, I know that spring has arrived—it's a wonderful sound."

**NORTH SUPPLIES**  
For the past month the companies flying north out of Edmonton have moved tons of supplies to get the communities for some six weeks when they will be isolated during break-up. Food, meat, spring gear for trappers and prospectors, all have been winging north.

Blosses is the most serious threat at this season when northern communities are almost entirely isolated. But such pilots are equal to the challenge of the season.

"In the event of serious illness, we can always get a plane down somewhere, either on skis or floats," said Ted Fox, manager of Associated Airways.

In Edmonton, where buds are just starting to swell, spring flowers will soon start to arrive from the fields of the Fraser Valley near Vancouver. They will be shipped here in thousands for Easter.

## Drunken Driver Loses Licence

A city taxi driver, Lou Teller, was sentenced to 15 days imprisonment yesterday and prohibited from driving a motor vehicle in Canada for the next six months.

Teller pleaded guilty to driving a taxi on the night of March 26 while intoxicated.

Assistant prosecutor Guy Beaudy called the charge "even more serious" than the usual case of the same nature.

"This man's job was to provide the public with safe transportation," he said.

A circus elephant, on a loading dock, will eat five pounds of bran 10 pounds of oats, 60 pounds of hay, and 40 pounds of legumes daily.

## PENSIONER IS SOUGHT

Missing persons bureau of city police is seeking the whereabouts of Nels (or Neil) McDonald, 68, one-armed pensioner missing since March 21.

Police said McDonald was last seen leaving the River-view Hotel where he lived.

## Army To War On Mosquito

Canadian army will declare war this summer—against the mosquito, mosquitoes of the north country.

Late in May, the army's mosquito men will attend a week-long course at Camp Borden, Ont., learning techniques.

Using insecticides for application, the shock troops go into "action" along the Alaska highway and at Fort Churchill. Six machines will be used on the highway and one at Churchill.

Troops say they fear the northern summer's insect horde more than they do the winter cold.

## Drop Foreseen In Unemployed

Unemployment Insurance Commission officials believe unemployment figures here will drop next week.

They expect usual seasonal construction activity will mean more openings for men presently unemployed.

Figures released Friday showed 3000 men unemployed in the city as against 4070 the previous week. Figures for women were 1544 as against 1977 before.

Vacancies for men are 304 (formerly 394) and for women 444 (formerly 521).

# Government Criticized Over Crude

## Prowse Allowables Charge Is Defended Before House

Alberta Liberal Leader J. Harper Prowse yesterday blamed government policy for high crude oil prices in the province.

His statement brought a defence of Alberta's conservation and oil development regulations from both Mines Minister N. F. Tanner and Premier E. C. Manning.

**"ARTIFICIAL PRICE FIXING"**  
The exchange came during a committee of the whole debate on a bill consolidating existing oil and gas conservation laws, which later received approval of the house.

Filing of allowables by Alberta Petroleum and Natural Gas Commission resulted in crude oil remaining at a high price, Mr. Prowse charged.

The limit placed on production discouraged competition for more extensive markets, Mr. Prowse said. It was particularly detrimental to small independent operators.

He was supported by Elmer E. Roper (CCF-Edmonton), who said a wellhead price of \$10.00 in Alberta was determined by the price at which oil-bearing areas would sell here. This represented artificial price fixing for the benefit of the producer rather than the consumer.

Regulations fixing allowables were based on the encouragement of oil development and conservation of oil resources, Mr. Tanner said.

Premier E. C. Manning pointed "suggestions" that the government encourage to keep up crude oil prices so that royalties would be higher.

Adverse effects of such a policy on the province would be far greater than the small extra revenue derived, he said.

**Sophisticated Thirties?**

INITIAL STAGES of the "great depression" shifted the pace from foppery frivolity of the "twenties" to a bored pseudo-sophistication in the hungry thirties. Judy Day steps from cousin Sam's photograph album.

**There Goes Yesterday—Laughter For The Young—Nostalgia For The Old**  
PARADE OF FASHIONS in this first half of the twentieth century, gives us a tin-type retrospective of feminine fancies from the "23-skidoo" stage through to "life is real—life is cruel" era of Ernest Hemingway's hungry thirties. We scoff today at yesterday's foolish fripperies. But with the passing of another decade we'll join our cousins, aunts, grandies in the laugh-provoking parade. Our children's children will giggle delightfully over 30's fashions.

## Women Yesterday

Dolores Kimball, Editor

Photos by ERIC BLAND, Bulletin Staff Photographer

### Progress Is Marked By Fashions

Whispering hope of the half-century is that our lot on this earth will improve. And through the first 50 years of this twentieth century the powers that be have certainly taken a whirl at a variety of ways of life.

Dignified damsels of the 1900's were quietly embroidering their samplers when the Great War threatened and feminine independence began to pierce the shell of "woman's place is in the home" propriety.

The roaring twenties were an aftermath of grief and hardship . . . a spell of feverish gaiety before the depression of the thirties.

**By The Sea—By The Beautiful Sea**

BATHING BEAUTIES lived dangerously in the "I Love My Wife . . . But, Oh, You Kid" days when "limes" and legs were exposed only briefly. And then . . . only by the more daring damsels of the day. Irene Greenwood languishes seductively in a model cleverly fashioned with elbow-length sleeves, knee (if you'll pardon the expression) length slattery.

### Yesterday's Memories Are Jaded

All the happy, sad, exciting, momentous yesterdays of our lives are tucked away in memory.

They're tangible only in the yellowed photographs in the family album . . . or in the box of souvenirs in an attic trunk.

Symbols of yesteryear bring nostalgia for us . . . and a positive laugh riot for our children.

They show the growth of women's determination for a voice in political and social reform . . . a loud firm voice on equal terms with the male populace. They show the quickening space of life, love and the pursuit of happiness.

**Beautiful K-K-K-Katy . . .**

WISTFUL, ROMANTIC heroines, with just a tinge of "modern" sublimeness fitted neatly into the Gibson-girl way of life. In these first infant days of the brand-new twentieth century a lovely miss like Jane Carston personified the "normal, healthy Canadian girl."

**Propriety, Sobriety In Society**

CENTURY'S TURN gave the little woman an extra fillop of "dignity," straight-laced attitudes and narrow-minded views. Irene Greenwood turns from the wild, wicked warmth of the saucy shores to a propriety model of matronly virtue impeccably frocked for tea at the manse.

**Life Was Gay, Life Was Mad In Roaring Twenties**

RAZZLE-DAZZLE DAZE of the post-war flapper era caught us with our waist-lines low and our spirits high. Briefly bobbed hair, flirtatious rolled stockings, cigarettes, pin-ups and wild, wild living pin-points a feverish fling before the world-shaking stock market crash. Speak-easy party pranks made every day an adventure. Cloche-hatted Ann Fild thrushes out "Kitchy-Coo . . . eyes of blue . . ." while Jocelyn Males, centre, and Lou Chisholm do a "hotcha" job of the lyrics.

**Be-Ribboned, Be-Laced, Be-Feathered**

CORSETTIERS had a field day when life was sweet in serious 1900. Mamma was elegant in fringe, portly bloom, lace-edging and stiffly starched manners. A parasol was as necessary as important as the large-scale hat, gloves and formality of speech. Sheila McNeill is a petti-point picture of this era.

## SHOPPING GUIDE

# Imported Asparagus Here at 50c a Pound

By Ben Thrifty

"The spring trade... the spring and the asparagus has ris. Yes home-makers are hungry for the fresh, tender stalks of new-season asparagus just arrived in our happy hamlet. Same green 'n' gorgeous asparagus is selling at grandiose price of 50c per pound... If you're spending that kind of money these handfuls days.

It's really not too expensive if you regard the asparagus with due respect and loving care. Make a main-dish of it by serving it with a sauce on top... or wrapped in ham slices. But the little wise man of the fruit and vegetable world promise more plentiful prices in the sweet by 'n' away.

Sad saga of strawberries brings news that early imports from the Mississippi area won't hit our local markets.

Reason for this broken promise is a kind one... they'd be worried at a fabulously-luxury-high retail. And it would be too strong a temptation for most of us. Importing houses here just couldn't afford to take the chances... so there you are it.

Next hope on the list regular at strawberries for an Easter treat around. This may not be possible, but at least we haven't an absolutely definite "no".

Now while still chattering about new-season fruits let's put on a long, sorrowful face and consider the first damage to orchards from British Columbia through the state of Washington.

This is an unfortunate condition indeed. Apples have taken a severe beating, peaches will not hit their usual quantity, cherries are still at the doubtful stage... but bears and hopes are over the land of cherries.

Now this is the rosy glow we may count upon. California apples will produce early and well. And we shall have a taste of these delights for the first time in many months.

Apples are first on the list. We may expect them late in April or mid-May. It all has to do with the business of the embargo being lifted you know. Speaking of embargo... when will we be enjoying the taste-tempting dried apricots again?

Here's a word or three reminding you 'n' you that we will be eating our way through warm-weather pastries this year. We'll wait till June's golden days for the late-treat.

Goodbye Mr. Drips!

It's true... a really "Dripless" paint with amazing covering qualities for use on walls, ceilings and other interior flat finishes (one coat is generally all that is needed). When using "Dripless" paint there is no need to cover up the furniture or worry about the mess usually associated with painting. Tested and found superior by professional painters. In lovely pastel shades. Ask your dealer.

# **TAWASI CLUB** Vancouver Landmark Has Indian Legend

"Little Chief got to talking about their paddles made large water the Pacific coast recently and told in the water. They called to the some interesting legends about famous landmarks out there. He mentioned Salmo, Arm, Point Grey, Stanley Park and Siuslaw. The tale about Siuslaw was especially interesting.

"Thousands of years ago there was a handsome boy who traveled far up the coast and brought back a shy northern girl as his wife. The young warrior was a fearless fighter and was loved by all his tribe.

**SWIM IN PACIFIC**

Several summers after their marriage, his young wife announced that she was going to have a child. As was the custom of his people, the warrior led his wife through the sea in the cool waters of the Pacific. They believed that parents of a coming child must swim until their flesh is so cold and clean that even wild animals cannot scent them.

As a new dawn broke in the eastern skies, the young wife left her husband to have her child in solitude, as was the custom. The warrior plunged back into the sea and began swimming again to be with her. He was apologetic when, if he did not swim on the hour his son was born, he believed the child would be disgraced with an unclear father.

**FOUR GIANTS**

As he swam happily in the waters, a canoe bearing four men headed up the Narrows. The four men were giants and the strokes

of their paddles made large water the open waters. It was the sound of the crying of a newborn baby. The tallest giant stood up in the canoe and instead of putting a curse on the Indian who had defied them, he spoke a prayer:

"You are a brave father to defy even the gods for your coming child," said the giant. "You shall not die but will live forever."

When the warrior swam back to land and his wife touched the point where water and land meet, he was turned to solid stone. Then his wife turned his wife and child into two rocks—one big and one tiny—on a reef near the image of the fearless warrior. And that is how Siuslaw Rock came to be the land of the Indians.

—Continued—

James Watt patented the steam engine in 1766.

**'Itchy Feet'**

Montgomery Clift, starred in "George Nereus" "A Place in the Sun," likes to travel when he's not working. During one recent flight, he visited San Francisco, Honolulu and Mexico, later two weeks later left for two months in Rome.

# **Uncle Wiggly's Bedtime Story**

Such a busy time as there was in and around Uncle Wiggly's sky auto, parked under the trees in Early Spring Land. In the auto many of them. We never can do Mrs. Longears and Nurse Jane. Fussy Wuzzy were getting break-fast Aunt Lettie. The little old lady looked at the orphan basket. Quickly she rubbed her paw on her nose. She didn't see any red paint on the sky auto and look out at her husband Uncle Pat Butler.

Uncle Butler was helping Chief Sergeant Bill and Bousin to put the new spare tires on the sky auto.

"As soon as we get the tires on," said Uncle Wiggly, "we can start back to my hollow stump house in Woodland."

Bustled of all in Uncle Wiggly's sky auto were Buster and Bunty. In Big Tree Land, near the western part of the North Pole, the two little rabbits had painted a picture on the back shelf of Tawasi the turtle. Now Tawasi had brought hundreds of other turtles and also frogs of Early Spring Land who wanted pictures painted on their backs.

"Do you think we can ever do it, Bunty?"

"Of course we can, Buster. You mix the paints and I'll make some brushes from the fur on the ends of our tails."

At last there was enough paint and there were enough brushes. "Tell your friends the frogs and turtles, to form in line and march part up in front of Uncle Wiggly's sky auto!" called Bunty to Tawasi the little turtle from Big Tree Land. "OK Bunty!" answered Tawasi.

"Line up, front! Line up, turtles!" he called. "Get in line for your pictures."

"Oh, Buster, such a crowd—so many of them! We never can do it!" said Bunty.

"Yes we can if you will wipe that red paint off your nose!" Bunty looked at the orphan basket. Quickly she rubbed her paw on her nose. She didn't see any red paint on the sky auto and look out at her husband Uncle Pat Butler.

**FORGET AGE**—Too many people consider 40 some sort of milestone. You are young when you feel the zest of life and old when you are bored.

## WHY GROW OLD

**You're Young as Long You've Zest for Life**

By Josephine Lowman  
Sometimes I think the term "middle life" should be changed to "muddle life."

At this age many men and women feel frustrated, just when life should really be most exciting!

Because of this feeling of age a sort of milestone, I have never really understood just why, except that many responsibilities are lessened. Children are grown and the career has been somewhat shaped. Well, what could be more exciting than this?

You have won a few spurs, one lovely kind which transcends the early and another is beginning. Are you afraid of a new adventure?

The idea also prevails that romance and love are dead from here on. Romance and love of a kind which transcends the early and another is beginning. Are you afraid of a new adventure?

Novelties Are Front Page News in Stockings

For a while now there has been a growing trend in fancy novelties in stockings. Today these number legion, and have caught on so fast as a popular fashion that one feels almost naked in a pair of plain this stockings.

It was the fancy heels that started it all and these are still the most popular stocking decoration. But there is an avalanche of new fancy seams, fancy toes, and fancy clocks. The dark seams are designed to make stockings look thinner and there is even a new stocking with a dark seam right up the center from the toe to the heel.

The newest of these novelty stockings, however, are those with sandal feet without reinforcement excepting tiny tips.

**Push-Button Voting Appeals To States**

CHICAGO (UPI)—The council of State Governments reports an increasing number of state legislatures are using automatic roll call machines to record their votes.

Eighteen states now have push-button voting in one or both houses of their legislatures, the council said. Mississippi was the latest state to install electric roll call machines when it provided for them for its house of representatives.

The council said the machines are accurate and save much time in determining quorum calls as well as results on contested issues.

Another reason for the feeling of middle age is the fact that the wife has been so busy raising the children and the husband or career woman has been so busy providing financial support that they have not taken time to take stock of themselves. Then, all of a sudden, the pressure is released and they unconsciously take stock of themselves. What they are often far from the dreams of youth.

But why worry or why be unhappy? There is still loads of a kind which transcends the early and another is beginning. Are you afraid of a new adventure?

## YOUR BABY AND MINE

## Reasons Discussed For Baby's Sleeplessness

By Myrtle Meyer Eldred  
Why won't children go to sleep at the proper hour at night? And the proper hour is from six to seven with infants and as late as eight o'clock by the time a child has reached the age of three or four.

Mrs. R. L. M. does not give many cues to why her child is unable to sleep at night. She writes, "I have never been able to put my 15-month-old daughter on any kind of schedule. As a general rule she wakes about 7:30 in the morning and I give her a little cereal mixed with fruit and then her bottle."

"She has never been very enthusiastic about eating and I am careful not to force food on her. She usually has a vegetable, all food and for the rest of the day she does not follow any routine and quite often is fussy and fiddle with her supper. She usually falls asleep about ten or ten-thirty and sleeps the rest of the night."

"She weighs 18 pounds and looks healthy and happy. Is there any way I could get her on a schedule? Do you think it is any harm to let her cry when I know she is all right and not hungry?"

What you did not tell me was how many hours she sleeps day and night. The child who does not sleep until ten is usually the one who sleeps soundly both morning and afternoon and then takes her wide awake period from six to ten p.m. instead of from three to six or four to seven p.m.

The diet could be improved by vitamin D, which you did not mention and with fruit juice, meat paste, cottage cheese and egg, all proteins which have a real influence upon sleep.

Also, be critical of the formula which may be so unbalanced as to cause the baby to grow very fat and be uninterested in the necessary solid foods.

I believe if you work to improve the diet and insure that the baby does not sleep too late in the afternoon, that you'll have her away from these unfortunate sleeping habits.

Groucho Marx does a hilarious satire and dance routine with Bing Crosby in "Mr. Music" Paramount's super tune film. In one scene Groucho takes Bing upon his head and kneels, as Al Johnson, and tells him the facts of life.
